

We have redefined the relationship between concrete and flooring . . .

Elite Crete Systems concrete overlays create the authentic and natural appearance of more expensive materials such as stone, slate and brick pavers at a much more cost effective price and without sacrificing durability and performance.

Millions of square feet of Elite Crete Systems concrete overlays have stood the test of time and harsh weather conditions from Norway to Alaska, Canada to Texas and beyond with exceptional results.

These finishes are available in hundreds of different pattern, color and texture combinations, all completely customizable to match your architectural surroundings, design elements and add your personal touch.

Elite Crete Systems is the ideal choice for custom homes, retail stores, hotels, public schools, museums, theme parks, restaurants, parking garages and many other high traffic applications.

From large expansive retail shopping malls to single family custom homes, five star hotels to world class theme parks, Elite Crete Systems concrete overlays provide beautiful, long lasting and easy to maintain finishes for virtually any project.

Leading architects, designers and specifiers around the world choose Elite Crete Systems concrete overlays when durability and creativity are both a must.

Whether it is an exterior application or an interior floor finish you are looking for, Elite Crete Systems concrete overlays can affordably add elegance and value to your project.
